

Our business which is a Physical Therapy Clinic receives numerous unsolicited and unwanted faxes from Telemarketers every day using our expensive jet printer ink, paper, and our fax which interferes with legitimate business, to fax their unsolicited advertisements that have nothing to do with Physical Therapy. This is costing our business money as jet printer ink alone is \$40. per cartridge. One company "Canadian Travel" has faxed us but has our phone number blocked from the phone number which is used to be removed from their fax list. So, we are unable to remove ourselves from their fax list. I want to file a complaint about this company due to the fact we are unable to remove ourselves from their fax list. Their phone # is 1-800-535-7415. The phone # to call to be removed from fax list is 877 201-7599.
